

PROFILE

Leading today is challenging. Our new work setting creates unprecedented pressures on leaders to lead through complexity and yield strong results.

Your position gives you the license to act but can you lead without absolute authority? Collaborative structures task you to lead differently calling upon yet another leadership mastery.

Jen Reed-Lewis has been coaching leaders for over 2 decades. Recently aligned with Diamond Leadership® you now have access to potent feedback tools/research so you can lead your best in these pivotal times.

MASTERING LEADERSHIP IMPACT

LEADING IN COLLABORATIVE SYSTEMS, STRUCTURES, AND ALLIANCES

HOW DOES THIS LEADERSHIP PROGRAM HELP?

The power that comes with a leadership role may or may not change you, but one thing for certain, it does change others. Power Intelligence® is the new edge when leading yourself and others.

Collaborative alliances excel based on the ability manage through competing priorities, intelligently share information, and engage in healthy conflict. It takes mastery in use of power to reach the needed to thrive and create positive change. The power you sense, how you use it, and how others experience it, is the dynamic that makes or breaks a leader's impact in a collaboration-based environment.

This unique "coach approach" leadership program increases your understanding of the impact of power, privilege and authority when leading change. It deepens awareness to your power sources and competencies required to direct the power of your role more effectively, but there is more. We work together to ensure your personal vision, values, and identity are aligned with how you use your power increasing both effectiveness and personal fulfillment.

WHO CAN BENEFIT FROM OUR MASTERING LEADERSHIP IMPACT PROGRAM?

Does your organization, division, or unit experience these challenges?

- High turnover/low morale
- Burnout in your best performers
- Issues with inclusivity, diversity, and collaboration
- Difficulty maintaining momentum with partnerships

Have workshops on topics such as diversity, teamwork, conflict resolutions, engagement etc., not worked, results were only temporary or did not yield the impact you anticipated?
