

Our Project Management Offerings

Topic Area	Services	Description
Project Management Practices	PM Fit Analysis	Review the project being undertaken and ensure that your project management resources and processes fit the demand and size of the initiative.
	Project Mangement Methodology	With you we can establish the project management methodology that will fit best and wrap around the project that you are either about to take on or have taken on.
	Project Management Service	We can take on the role of Project Manager for you and ensure that your project(s) are managed and governed according to agreed methods plans. We can provide this service for a particular phase (ie planning) of your project or all phases.
Project Health and Recovery	Project Health Check	Review current state of a project against best practices and industry standards and provide a health checkup analysis with recommendations.
	Project Recovery	Basically a Project 911 call for projects that have gone off the rails and need a fresh set of objective eyes on it. Recommendations will be provided for ways to recover control and set a path for success
Project Leadership Skills Development	Leadership Skills	We will establish the skills necessary for the project manager as related to the type of project and environment they are working in and develop a customized skills development plan for them and assist them through that plan.
	Team Management	Teams are tough and usually part time on projects we can assist your project manager and their team on ways to create a productive and rewarding environment to work in.
	Contract & Vendor Management	Most projects involved more than one contract and with than many vendors that need to be constantly communicated to and managed. We offer tools and technquest to guide you through that process in your projects.
	Sponsor & Stakeholder Management	We offer techniques and methods for the management of at time a diverse group of decision makers that can impact your projects and who are impacted by your project. We align this with the Sponsor Roadmap with Change Mangement to ensure a common and efficient process is established.
